

WATERPLAY[®]

BY **MAKER**

**CONNECTING
THE WORLD
THROUGH PLAY**

UNITED THROUGH WATER. INSPIRED BY FUN. CONNECTED THROUGH PLAY.

As inventors of the modern splash pad—yes that’s right, the first Waterplay install splashed to life in 1987 in Whistler, British Columbia, Canada, where it is still spraying strong today. The team has never stopped imagining more outrageous ways to play in the water.

Waterplay offers innovative splash pad products designed for developing minds, thrill seekers, budding explorers, and the young at heart; because FUN BUILDS communities, connections, and awe-inspiring play spaces.

BY YOUR SIDE

1

GET INSPIRED

We combine your creative vision with our expertise to spark early design ideas.

2

START A PROJECT

Together we identify your goals, priorities, and factors that will shape your splash pad experience and help it succeed!

3

FROM IMAGINATION TO REALITY

Our creative team brings your concepts to life with detailed 2D plans and immersive 3D renderings making your project easy to visualize and even easier to love!

CHARGER

FROM START TO SPLASH!

4

MANUFACTURING EXPERTISE

Our in-house team builds every feature—from cutting and welding to powder coating—delivering top-quality FUN BUILDS.

5

FROM FACTORY TO FUN!

Expert logistics, shipping, and install teams ensure your splash pad is delivered and up and running—fast and safely.

6

LIFETIME MAINTENANCE AND SUPPORT

From repairs and parts to upgrades and warranties, our support team keeps your splash pad thriving year after year!

DISCOVERY ZONE

EXPLORATION ZONE

ADVENTURE ZONE

INCLUSIVE DESIGN PHILOSOPHY

Splash pads are naturally inclusive, barrier-free, and meet the needs of children of all ages and abilities. The Waterplay design team doesn't focus on the age of splash pad users, but rather HOW they choose to play. This is expressed through three primary play zones.

DISCOVERY ZONE

Often designed for the youngest of Waterplayers, this zone facilitates height specific play features with predictable, gentle water effects to provide assurance and security to those who may become easily overstimulated on the splash pad.

EXPLORATION ZONE

This is where children can challenge themselves a little and begin stepping outside of their comfort zone. This universal space invites collective fun and endless social opportunities offering a play experience that shifts between quiet play and high action!

ADVENTURE ZONE

The name says it all! Big splashes and non-stop activity! The adventure zone is full of energy and excitement and robust play—not for those who are shy or looking to stay dry!

WATERPLAY PRODUCTS

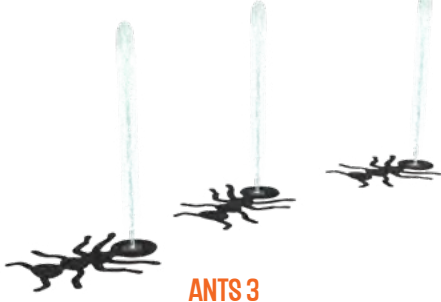

SOLIS 24

FROM SMALL TO TALL, WE BUILD FUN FOR ALL

The Waterplay team believes that every splash should spark joy, curiosity, and connection. That's why the collection of aquatic play features stretches from small to tall, ready to delight communities of every size.

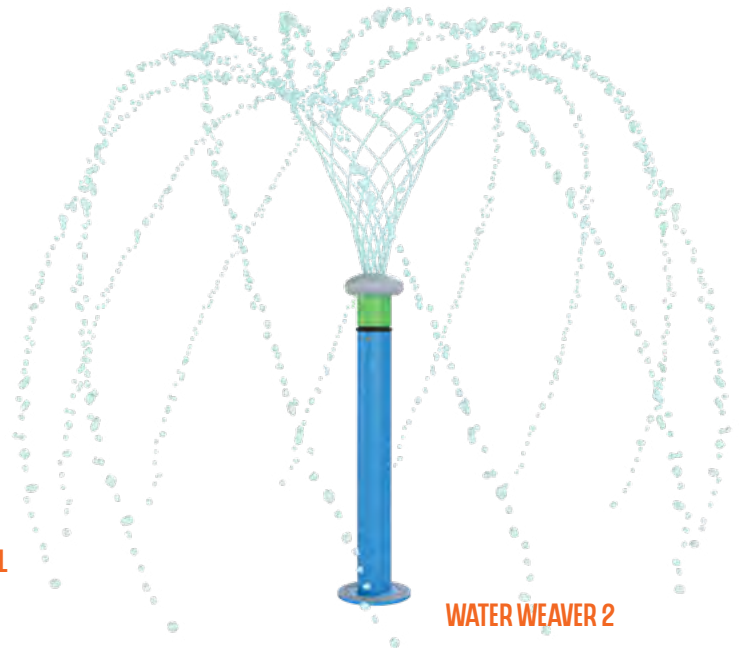

With custom theming that brings any story to life, and inclusive, cause-and-effect play designed for everyone, Waterplay creates spaces where water dances, imaginations soar, and communities gather to laugh, play, and make memories.

CASTLE PINES CANYON CLUB

CASTLE PINES, CO, USA

A large blue graphic shape on the left side of the page contains several realistic water droplets of various sizes. To the left of this shape, a portion of a water park fountain is visible, featuring a yellow fish-like structure with water spraying from its mouth. The background shows a black metal fence and green trees under a bright sky.

FUN BUILDS AROUND THE WORLD

A SPLASH IN EVERY MARKET

Municipalities • Campgrounds and Holiday Parks • HOAs • Theme Parks • Hotels and Resorts • Shopping Centres • Child Care Centres • Cruise Ships • Doggie Daycares • Water Parks and Aquatic Facilities

Waterplay doesn't stop there! With installations across six continents, there's almost nowhere we haven't splashed. If you've got an idea for a unique project or location, the Waterplay team would love to hear about it.

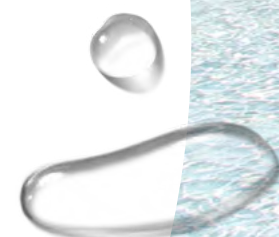

QUEEN CREEK RECREATION & AQUATIC CENTER

QUEEN CREEK, AZ, USA

The vibrant new Queen Creek Recreation & Aquatic Center began with a vision to enhance the community and has resulted in a dynamic aquatic and recreation destination where fun, connection, and inclusivity flow freely.

From the excitement of racing down twin slides on the custom Activity Tower, to the relaxing drift of the lazy river, every corner of the facility invites discovery and encourages play. Kids can splash through ground sprays and engage with interactive Waterplay spray features while parents relax nearby, providing hours of splashy fun! This aquatic facility has something for every age and every ability, reflecting the city's dedication to creating spaces that bring people together.

SWAN PARK

BEAVER DAM, WI, USA

The Swan Park splash pad was part of a revitalization project that transformed an existing, old and underused wading pool into a fun, safe, and sustainable community space.

From thrilling dumping buckets to gentle ground sprays, this splash pad is packed full of splashy features that provide endless hours of fun. This amazing space also doubles as Waterplay's USA testing facility!

SKY SOAKER

WATERFALL 3

LAKE TINAROO HOLIDAY PARK

LAKE TINAROO, QLD, AUSTRALIA

Bursting with interactive aquatic play elements like water cannons, cascading sprays, jumping puddles, and Fellows, the splash pad at Lake Tinaroo Holiday Park was designed to provide immersive aquatic play experiences for all ages and abilities to enjoy.

Taking centre stage, the soaring, multi-tiered Activity Tower features a huge soaker bucket, two slides, and playful sprays and splashes that encourage high energy play and continuous excitement.

KANGAROO

SNAPPER 1

CUSTOM ACTIVITY TOWER

ABENAKI AVENTURE CAMPING

ODANAK, QC, CANADA

Cool off under the summer sun at Abenaki Aventure Camping's one-of-a-kind splash pad - where culture, creativity, and fun come together. Themed to meet the needs of the Abenaki First Nation reserve and drawing inspiration from the totems that surround the campground, this refreshing oasis features both standard and custom splash pad elements that create fun for the whole family.

A towering Bun-Bun Titan is the tallest feature on the splash pad, while three custom wolves send water soaring as they howl toward the moon-themed Mega Soaker. A custom teepee and custom feather feature shower playful sprays from all sides while gentle ground sprays complete the experience with a splash of serenity.

TOWERING TITANS

With three connection points to the splash pad surface and multiple water effects, Waterplay's Titans pack the gigantic punch of a whole splash pad in a single feature! Towering over any splash pad, these mighty creatures deliver EPIC play value and are sure to be the main attraction of any space!

CUSTOM FELLOW

SOAK STATION 309

SURPRISE, AZ, USA

At the heart of the Rescue Oasis Complex, you'll find Soak Station 309—a splash pad that is more than just a place to cool off. Designed to pay tribute to the firefighters of the neighbouring station, it was inspired by their courage and commitment to community, and has come to life as a playful, hands-on adventure for kids of all ages.

Waterplay pulled out all the stops for this space to tie every feature into the theme. Custom work included a fully decaled firetruck Activity Tower, a custom graphic plate on the O-Riginal, and two custom themed Fellows – a spotted Dalmatian friend and an interactive fire hydrant perfect for blocking sprays from the Splash Blasters scattered throughout the splash pad.

Gentle ground sprays shimmer to illuminate the space with Waterplay's Glow Effects flickering like the warning lights of a real fire engine to offer a sensory-rich experience for the youngest of Waterplayers. The adjacent swimming pool features several other Waterplay products making Soak Station 309 a water-filled adventure for all park users.

CUSTOM
ACTIVITY TOWER

CAMPING DU LAC DU CAUSSE

LISSAC-SUR-COUZE, CORRÈZE DEPARTMENT, FRANCE

Located on the shores of Lac du Causse in Corrèze, this splash pad brings a ton of fun to campers who want to experience the wild of the great outdoors paired with high quality aquatic amenities. The splash pad was designed to reflect the beauty of the nearby lake and delights families with endless splashes and fun-filled moments.

OGOPOGO

OCTOPUS

ACTIVITY TOWERS

Waterplay's Activity Towers deliver bold designs with huge play value! Offering multi-level fun with slides, spray features, and splashy tipping buckets, these towers are built for big thrills and non-stop action. Designed with inclusivity and accessibility in mind, Activity Towers are the perfect centerpiece for any splash pad and are guaranteed to make a BIG impact.

Waterplay's Activity Towers utilize playCONNECT™ technology, which allows park operators to seamlessly swap out features without taking the splash pad offline—minimizing downtime and maximizing fun. Another bonus...your Activity Tower can keep reinventing itself with new features, bringing fresh surprises and endless fun to the community season after season.

Waterplay offers signature designs—from mini to mighty—in three beautifully themed packages: Classic, Oceana, and Wildflowers. Scan the QR code to learn more.

ELORA O'BRIEN PARK

ELORA, ON, CANADA

Elora O'Brien Park's nature-themed splash pad brings the outdoors to life! Featuring vibrant play elements from Waterplay's Grasslands collection, this whimsical space delivers big laughs and even bigger splashes. Kids can twirl through the sprays of the Water Weavers, team up with friends at the Splash Blasters, and brace for an exciting soak from the Ladybug Soaker—pure, nature-inspired fun at every turn.

LADYBUG SOAKER

FINLEY AQUATIC CENTER

SANTA ROSA, CA, USA

Designed to complement the existing pool space, this vibrant new splash pad area brings families together with playful features and big splashes. Kids can race each other through the Water-Os, dodge splashes from the Daisy Mae Windy, and take aim with the Starfish and Surf Cannon before getting soaked by the towering Sky Soaker! With a shaded picnic space, expanded pool deck, fresh landscaping, and updated fencing, it's the perfect spot for all-day summer fun.

WEKID

BY **MAKER**

THE WEKID DIFFERENCE

**CUT, DRILL, TAP, BEND, SHAPE, WELD, AND
POWDER COAT – WEKID DOES IT ALL!**

Home to one of the largest manufacturing facilities in the Okanagan Valley, Wekid Manufacturing brings Waterplay® features to life, one bend, cut, polish, and weld at a time. Waterplay relies on the expert team at Wekid to deliver top-quality products, built for long-lasting splash pad fun.

CUSTOM

Wekid's skilled product design team collaborates closely on custom requests and projects, ensuring a unique and authentic play space for every community where Waterplay plays.

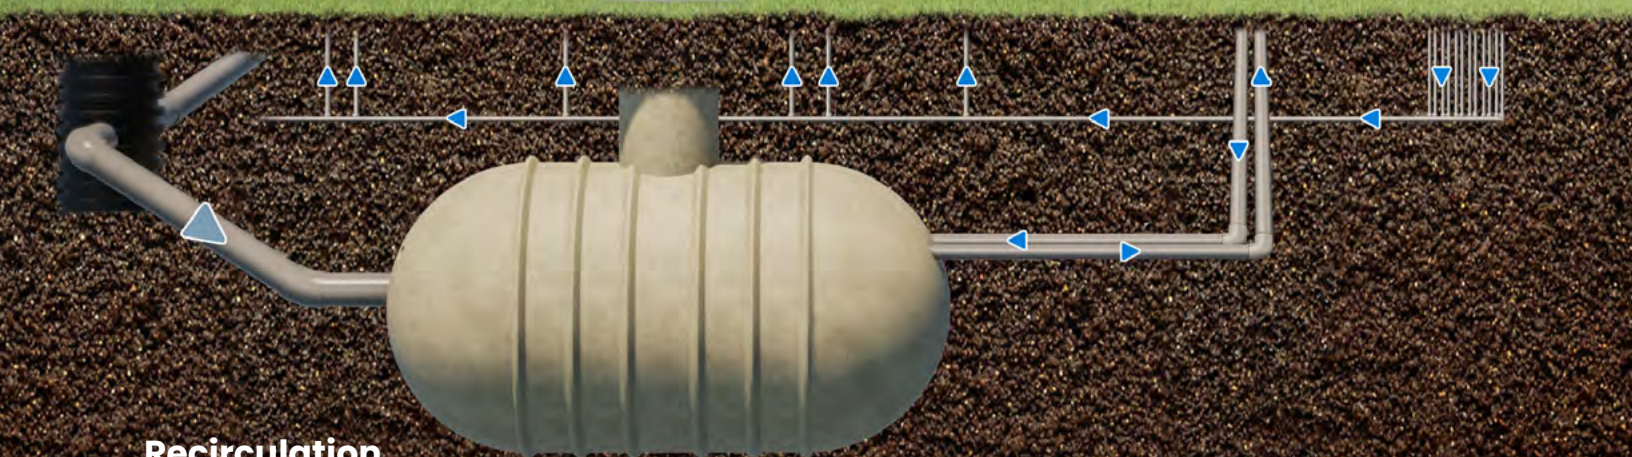

QUALITY

The Wekid team is serious about quality and fun. With a team-first culture and commitment to delivering legendary service, the results speak for themselves.

Wekid's best-in-class manufacturing processes have been **ISO 9001/14001 certified** for more than 10 years. The team adheres to rigorous quality control and environmental best practices in the manufacturing of the Waterplay product.

WATER MANAGEMENT SOLUTIONS

Recirculation

Recirculation treatment systems are designed to collect, filter, treat, disinfect, and return the water to the splash pad, creating a safe and sustainable circulation method.

WATER TREATMENT SYSTEMS, ACTIVATORS, CONTROLLERS, MANIFOLDS, KIOSKS, AND MORE!

Make water work for the needs of your splash pad design and the surrounding infrastructure. Waterplay's tools and systems lead the industry in safety, technology, and function.

With different solutions for every project, Waterplay will help you find the perfect water management system for your space.

SCAN THE QR CODE TO LEARN MORE ABOUT WATERPLAY'S WATER TREATMENT SYSTEMS.

Flow-through

A flow-through system is efficient for aquatic play spaces that utilize small volumes of water. Potable water is delivered directly to the splash pad and drains into a local sanitary or storm drain system, where it is then handled according to municipal water management strategies.

WATER CONSCIOUS SPLASH PAD DESIGN

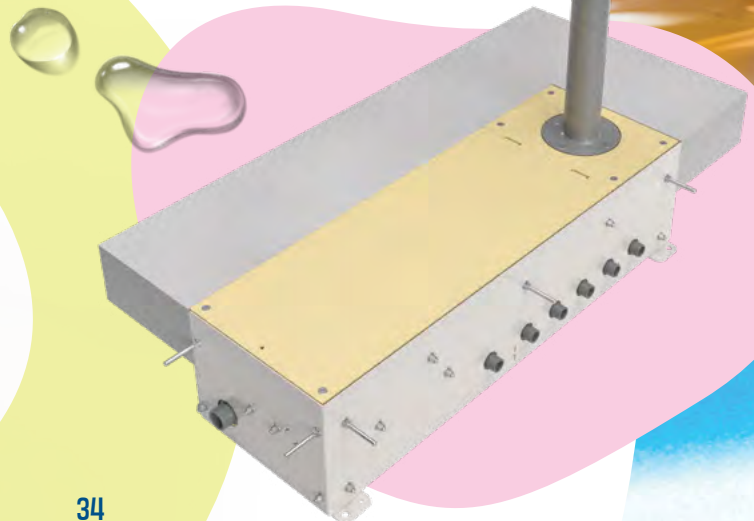

Starting with a water-conscious design for your splash pad helps create fun, exciting play spaces while being kind to the environment and your budget. Utilizing timed sequencing and low-flow nozzles helps lower water consumption without compromising play and ensures that your splash pad won't run when it is not in use.

Activators

On-demand activators optimize water use and maximize play value! Touch, turn, spin, or tap to start the flow of water, creating a dynamic play experience while reducing water consumption.

Eco Activator

Waterplay's Eco Activator is the perfect solution for splash pads with smaller footprints or those geared to be low-flow. With six water line outlets, the Eco Activator offers the ability to connect to multiple features at once and includes an all-in-one controller, manifold and enclosure.

Sequencing

With a Waterplay controller, you can determine which features should be active and for how long, creating sequenced play zones that can help optimize water usage and minimize water waste when not in use. Sequencing also creates unpredictable play patterns, which keep kids guessing where the fun will be coming from next.

Environmental Factors

Environmental factors like wind and evaporation can lead to significant water loss, but a smart splash pad design can make all the difference. With strategic planning and thoughtful feature placement, you can keep water where it belongs: in the play zone.

playPHASE™

WATERPLAY TECHNOLOGY

FUTURE-PROOF YOUR SPLASH PAD

playPHASE™

Don't limit the possibilities of your next aquatic play project. Phase your installation, switch out spray features, or plan for future expansions with playPHASE, a flush-to-grade anchoring system exclusive to Waterplay. The playPHASE anchoring system allows park operators to swap out features with zero down time on the splash pad, offering communities the ability to constantly refresh play spaces for years to come.

playCONNECT™

The industry's first modular feature mounting system, playCONNECT, was designed to grow with your play space, delivering the perfect solution at every stage. Similar to playPHASE, the playCONNECT system allows operators to mix and match features above the anchor point, making the elevated play surface more customizable, simplifying maintenance, and making it easy to upgrade.

PARK ESSENTIALS

DESIGN A SPLASH PAD THAT KEEPS THE FUN FLOWING ALL DAY.

The Waterplay team knows it's not just about water—it's about connecting communities by creating spaces where families can play, relax, and stay. Add shaded seating, washrooms, change rooms, and soft, playful surfacing for maximum comfort and accessibility. Waterplay works with a trusted network of vendors and suppliers to bring every detail to life—delivering a complete, all-in splash pad experience.

UNIDAD DEPORTIVA DEL SUR SPLASH PAD
